

A Parent's Guide to My Homework

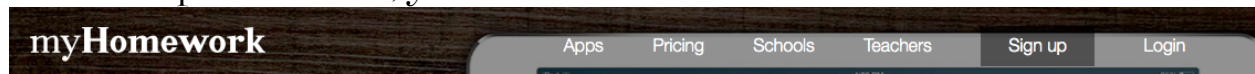

To view your student's My Homework account, you have two options.

Option 1: Log in to the My Homework website on any computer

Option 2: Download the My Homework app on a device and log in.

Option 1:

1. Find the site online. Search for My Homework or go to <https://myhomeworkapp.com/>
2. At the top of the screen, you will see:

Press the Login button that is on the far right.

3. Sign in with your student's account. Choose the orange button: Sign in with Google. The username example is below. Students create their own password.

Username example: ebv121@students.needham.k12.ma.us

Your username is your first initial, middle initial (if you have one), last initial, 2-digit year of graduation, and a number (usually 1). For example, Jane Doe Smith (2014), would have a user name that looks like *jds141* or *jds142*. You must enter your full username/email address (ie. jds141@students.needham.k12.ma.us) in order to sign in.

Option 2:

Download the app and follow instructions above to sign in with Google.

Additionally, you may create your own account. With this option, you will be able to see all the assignments but will not see which assignments your student has marked completed.
